

Dear Parents,

As you may be aware, the after school program has been undergoing changes since the end of our grant. In an effort to improve our long term sustainability, it has been decided to consolidate the PKA program in Fryeburg, at the C.A. Snow Elementary School. This means students from Brownfield-Denmark and New Suncook will take the bus at the end of the day to C.A. Snow, where the three most experienced PKA staff members (Faith Timberlake-Alves, Penny Richards and Megan Hamlin), will provide a healthy snack, academic support, exercise and enrichment activities every afternoon. At the end of the day you will need to pick up your child at the C.A. Snow School. We will still have the same five, two month sessions with the same rates, two selected days for \$100 & full time for \$200. In addition, the funds which each school has raised for their PKA program will be dedicated to providing scholarships specifically for the students from that school. We will be continuing the Barter Program, where volunteers may contract to donate sixteen hours to the program to cover the cost for a student to attend the program full time for one session. Our aim is to provide the same quality programming to any elementary school student in MSAD 72 who needs it.

Sincerely,

The staff of MSAD 72's After School Program
