

Cup & Ball Game

1 larger wooden bead or pom pom (to fit in cap)

18" to 20" of string or yarn

Laundry soap cap

4" stick or dowel

$\frac{1}{2}$ " to $\frac{3}{4}$ " screw

Screwdriver to fit screw

Drill hole in the center of the cap (smaller than the screw)

Drill a hole in one end of stick (also smaller than then screw)

Screw the screw through the cap and into the dowel. Do not tighten all the way yet.

Tie the wooden bead (or knot the end of the yarn and thread it on a large eye needle, passing it through the pom pom to one end of the string)

Tie your bead/ pom pom around the screw below the cap.

Tighten the screw.

The object of the game is to catch the ball in the cup.

The smaller the ball, the longer the string and the smaller the cup, the more difficult the catch.
