

Flying Butterfly

You will need:

- Print of butterfly wings (or make your own)
- One straw cut to 2 to 3 inches
- One small sturdy rubber band
- Two toothpicks
- Tape
- length (10 ") of buttonhole thread or light string
- scissors

To Fly your Butterfly:

Grasp butterfly by the lower wings.
Rotate the top wings (approximately) 30 times.
Place flat (or inside a card or book).
Release (or open card or book).

Experiment!

Try different sized straws, different length straws,
different sized rubber bands, lighter or heavier
paper.
Try cutting top wings to size (do not fold top edge
down).
Make your own wings.
